

98m

DRAFT SPEC

Super Yacht Tender Wave Piercing Catamaran SeaFrame

CONCEPT

98m Super Yacht

The 98 metre Super Yacht Tender builds on the operational experience of the twelve 96/98 metre commercial wave piercers in service. It features all that makes the larger 112 metre so outstanding: the resilient superstructure with Owner's and Guests' suites, the helo deck with hangar, the storage bay with overhead gantry, within a more purposeful exterior.

The exterior allowing the Owner privacy during their travels not always afforded by super yacht finishes of other vessel.

Principal Particulars
